

SACRED SPACE
MEMORIAL

BUILDING HERITAGE.

FOR IT IS A PLEASURE TOO, TO REMEMBER.

Sacred Space Memorial is in the business of bringing things full circle. We work with churches, universities and other community organizations to construct monuments that unite the past with the present. We handcraft customized environments in which cremated remains are placed, producing a vital sense of heritage — all without a single dollar of financial risk to you. Once built, a Sacred Space Memorial gives your property a magnetic feature that elevates the appearance of your grounds while meeting a significant need for your members.

BUILDING A LEGACY

We understand that your institution is unique. The memorials we build are completely customized with unsurpassed attention to detail. They are strong and lasting — the physical embodiment of your meaning to your community. Be it inside your building or the centerpiece for an outdoor setting, a memorial strengthens bonds within your community, opening up the possibility of new connections being made.

REVENUE OPPORTUNITIES

We also provide your institution with a long-term revenue source with literally no financial risk. Once your leadership decides to proceed with a project, Sacred Space sets about selling an agreed-upon percentage of the total spaces available in the memorial. Once this is achieved, we begin construction. When completed, the remaining niches are given to the organization with sales momentum in place. The memorial has been paid for, so the proceeds from these remaining spaces represent pure profit.

UNPARALLELED EXPERIENCE

We have nearly a century of leadership experience in the cemetery/funeral business. And we are proud to say we have exceptional credibility among our peers and within the diverse communities we serve. We are expert communicators, project managers and consensus builders. We are attuned to the fact that every new memorial represents a unique audience and set of needs. Great care is taken to customize a memorial that captures the dignity, respect and memory of your constituency.
