“ Micheal was a very sweet man. I'll never forget when I asked him to take care of my cat "Kiki". She had been staying with him for a couple of weeks when she managed to get out of his trailer. He contacted my in a total panic. He told me that she couldn't stay any more because she got out but she did come back before he got in touch with me. He sounded angry but really he was afraid that she would get out & not come back.

“ Michael.. the day we met my bro Cary Jones brought you over to the spot and we went out back for a cigarette! Typical right?? We began conversating about motorcycles and a little about how it was back in the old days. I got to show you a couple of videos of me riding. Street/dirt. You were so stoked you stood up and come over and gave me a solid handshake.. that handshake ment a whole lot to me. The whole experience of the night that my brother rode you in.. sounds like peace..Thanks Michael. God bless you and from one motorcycle lover to another. My repects...

“ I only knew Michael for a short period of time, but during that time I saw nothing but a kind, caring child of a higher power. Now he has left this world and those people that he loved (Kimmie Diaz) for a better place. Kimmie you will see him again one day....until then know that you did the best in taking care of him. Prayers and thoughts are with you Kimmie and those who loved him. Signed a friend.
