“ *My name is Sriram and i used to work closely with Mikhail at Photon Dynamics. I just heard the news about his passing. I am truly shocked and saddened on hearing this news.*

Mikhail was a truly gentle and wonderful man. He also was an exceptionally bright and brilliant engineer. He was very quiet, but had a very subtle sense of humour. He would break into a very understated and gentle smile after telling his jokes. I met him almost every day between 2008 and 2017. It is truly unbelievable to hear that he is not with us anymore. Maybe God wanted him up there to take photos at his parties, or write some camera accelerator software code.

I want to express my most sincere condolences to the entire family.

Go lightly Mikhail and God speed.
