Tribute Wall

TW

“ I went to high school with Srinath. We were in the same PE class during our sophomore year, and he joined the cross country team during my second year on the team. I was impressed by his growth throughout the season, and in a way, he motivated me to improve during my junior and senior years.

I am very sorry to hear of his passing, even if it's four years later than I would have wished to find out. I cannot imagine what you all have gone through. May he rest in peace.
