Obituary – Travis Ryan Devine

On Saturday, February 20th 2021, Travis Ryan Devine passed away unexpectedly at the age of 36. Travis was born on September 15th 1984 to Dr. Christopher J. and Connie C. (Grant) Devine in San Jose, CA. He graduated from Oak Grove High School and attended West Valley College. Travis enjoyed Oakland A's Baseball, Saber Cats Arena Football, Sharks Hockey, drawing, scuba diving, and occasional runs down the slopes of the Sierra's on his snow board, but his passion in life was always music. He was a founding member of the band "Fallnup" (San Jose) and spent the early part of his career recording at Sound City (Los Angeles) under the tutelage of his producer, Jace Smith, the founder of Shelter Studios. Eventually Fallnup was signed by Jet Speed Records (Los Angeles). After recording multiple CDs with Fallnup, he co-founded the band "Attack on Hoth" and was a member of this foursome until his untimely passing. Travis is survived by: parents – Christopher and Connie; siblings – brother, Kelly J. Grant; Sister, Erin C. (Devine) Arreola; brother-in-law, Gilberto Arreola; favorite nephews, Elijah and Gilbert Arreola; his oldest and dearest childhood friend Corey Cassarino; and too many aunts, uncles, and cousins to list. In lieu of flowers, please donate to Injured and Orphaned Wildlife (Campbell, CA) a cause near and dear to his heart. Services will be private; however, a celebration of the wonderful life of

Travis will be planned for the spring.

“ Travis, It's taken me awhile to find the right words to express how I've been feeling since your passing and there is just a giant piece of my heart missing a space that can never be filled by anyone... You meant the world to me the times we shared making music to times just hanging out and being stupid the advice we would give each other while we we're angry/mad/sad... we had each others backs always. A lot of people didn't understand our connection but our bond could never be broken no matter how stupid I was or no matter how stupid you were. We had our ups and downs and fought like brothers... because we we're brothers and I will forever hold you in my heart until I die. I miss you so much man...I listen to fallnup/attack on hoth almost daily just to hear you. I hope you found peace bro... ill see you again. Love you foreverJosh

“ Travis. I consider myself lucky to have been able to share our passion for music together. Writing songs with you was always so seamless and they always just came together. Emotions and feelings translated to riffs with lyrics. Supporting each other with every note and transition. Some of the best times of my life were shared with you. On stage. On tour. Recording. Creating. Dreaming. You gave me hope and inspiration. You taught me how to be stoked for life, always looking at the bright side of things. Saying that I'll miss you is an understatement. May you find peace and solace on the other side. I know that we'll eventually see each other again. I've got plenty of riffs that we can play when we meet up. Great memories and amazing times. I'll never forget. Forever in my heart, my dude.

“ My wife and I want to thank you all from the bottom of our hearts for all of the heart-felt stories and memories from time spent with our son. Please, there is no need to send flowers or plant a tree. Travis had a fond love of animals. Instead of purchasing flowers or planting a tree, please donate to Injured and Orphaned Wildlife, a cause near and dear to his heart. “ Travis I remember when your mom brought you home. You were a cute little booger. I remember when I finally got you to take a bath. You were cute splashing and playing. I also remember how you used to terrorize my daughter just playing with her. I will miss you and your smile. You were way to young to leave. You had a very big heart. To Connie, Chris, and Erin I am so sorry for your loss. Live you guys

“ Dear Travis, I met you when you were a teenager. I could see you, your kind, gentle soul always showed. So many years have gone by ... I will always admire your heroic rescue of Rocky the Raccoon, your deep bond with Weasel and Moose, your kindness to all animals...I always managed to get a hug from you when I came by. I feel so incredibly honored to have gotten that last hug on your momma's birthday. If only I had known it was the last one. I would have never let you go. You are so loved. I miss you tremendously. You left us too soon. Til we meet again...

“ Travis and I and a few of his friends got stoked surfing in various places in the Santa Cruz area. I regret that we didn't do it more often. He was always laid back and fun to hang with. These should be his memories, thinking of me; too soon my friend.

“ Hey Taz, ya left too soon. It's been many moons since our trails last crossed but I remember you as the baddest hot wheels jockey and loudest little bas*ard on the block. Hurts my heart about your untimely departure, especially for the fam. Chris, Connie, Erin. Much love my friends. May your hearts heal soon.

“ My first memory of you when I saw you the first time. You were just walking and wore a diaper. I met the cutest little fellow with bright blue eyes, golden curls, a captivating smile and the sweetest laugh. I fell in love. You were that same little guy in a grown up body, even with your struggles. Just because you have gone doesn't mean I will stop talking to you...be listening! Forever, Aunt Sis ❤️❤️❤️

“ Travis, You name Erin were the first kids I met when I moved to Cali. I still remember you waddling/running around in your jammies chasing after you siblings. As we all grew your heart began to show itself and I always thought, that Travis is a good good kid with such a great imagination..I cant wait until he shows the world! You did it in spades. Your gift to the world is your genuine heart and talent expressed though the arts. Whether you decided to share through an original drawing, singing, or playing guitar..your talent and heart felt intent was unmistakable. Thank you for inspiring us all to live on our own terms with that same raw passion for expression and most of all...love. Travis, I think you know how much you are loved and will be missed. I know at least for myself, I cant wait to see that smile and remember that curly headed, dirty faced little kid and hear the voice of a man with a heart of gold. Keep rockin! See you on the other side. Your old buddy,Jeremy

“ Travis was the kind of guy that wanted everyone to have a great time and really loved his music. I really loved travelling around to different shows and feeling that amazing energy that they brought to every gig. There were so many nights we'd hang out at the studio by golf land and hang out while they practiced or go outside and hit the skateboards. One of the coolest dudes I have ever met. It was an absolute blessing to get to know Travis and his passing has definitely encouraged me to reach out to old friends and family that I haven't talked to in years. I remember talking to Sergio about trying to get the band back together for a show for my birthday this year and I really wish I would have reached out to Trav too. His passing so soon is a reminder to us all to reach out to those we love and tell them because our time here is limited. I truly believe he is up there singing with the angels for us, much love to the family and friends of Travis.

“ Travis, I know I haven't know you as long as some of your other childhood friends but I've always felt that we had a special connection. From playing in the streets as kids to going to junior high and high school with you and even in our adult lives. You never once turned your back to me when I needed someone to vent/bitch to. I will always remember you as one of my best closest friends. I pray your soul finds peace. I love you Travis. Love, Boomer

“ Hi my name is Michael DeMore aka the nickname that Travis gave me (Freeballing Mike) I have known Travis and the family since I was about 5 years old we used to chill on our skateboards at night in the street and stare and talk about the stars. As we grew up we always talked about being in a band and one day when we were teenagers we made one and had Josh Marriot on bass myself on lyrics and Travis Devine as guitarist and I can't recall the drummer but we sang My Own Worst Enemy by Lit. I Remember Travis Introduced me to the band Green Day for my birthday and then he also introduced me to Blink 182 if it wasn't for Travis I wouldnt have the love I have for music now, for that I am so greatfull and will always charish that. I will also remember supporting him when he would go to venues to play shows and be his number one fan in the crowd. Over the past 31 years, Travis has introduced me to many now shared acquaintances. After leaving San Jose Travis and I still kept in touch over Facebook. I will miss him deeply and always remember all the good and bad times we shared together. I miss you bro love you man
